ZP7-SBB-P

Ziton series surface mount visual indicator base, PW

General

The ZP7-SBB-P is a POLAR WHITE, surface mount ZP7 series visual indicator base compatible with the Z700 series detectors. It supports the ZP755V-P addressable visual indicator when used with an external power supply. Automatic locking is provided for use with a device enabled for head locking.

Installation

ZP7-SBB bases provide slots for screw fixing to either surface wiring plates or conduit boxes with screw fixing centres between 50 mm and 90 mm.

Terminals

ZP7-SBB bases feature robust wiring terminals with captive clamping washers to ensure secure wiring termination. The bases are of shallow design with ample space to accommodate cables of all types. Terminals are provided inside the moulding for loop connections and the termination of cable screening.

Details

- Supports external power connection for the ZP755V-P
- Common to all Z700 series detectors
- Automatic locking option
- Address identification label
- Ease of installation

ZP7-SBB-P

Ziton series surface mount visual indicator base, PW

Technical specifications

General

Compatibility	All ZP7 series addressable detectors and ZP755V visual indicators
Monitoring	Device removal, Device type, Open circuit, Short circuit

Electrical

Operating voltage	16 to 22 VDC

Physical

Physical dimensions	108 x 17 mm (Ø x H)
Net weight	40 g
Colour	Polar white
Material	Moulded ABS

Environmental

Operating temperature	-20 to +55ºC
Relative humidity	0 to 95% noncondensing
Environment	Indoor

Specification

	Designed to comply with BS5839

Mounting

	Conduit box or surface wiring plate (mounting centres 50 – 90 mm)

Wiring

	2 wire zonal

Terminals

	Loop +ve in/out
	Loop -ve in/out
	Cable screen continuity
	+ VCC +ve
	- VCC

Compatible products

Category	Reference	Description
Detection device	Z-AUXD-2P	Deep base mounting, polar white
Notification device	ZP755V-P	Ziton series Addressable Visual Indicator
