ATS7090

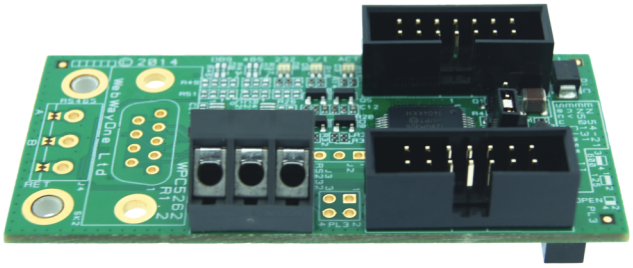

ATS interface for WewWayOne communicator

WebWayOne

WW1 provides communication solutions for monitoring stations supporting alarm reporting and remote configuration. The communciation devices are remotely managed which benefit the installer via limited installation time and complexitiy and where the communication channel is managed remotely.
In case there is a need to update the prodcut to support new features or solutions, then its FW can easily by upgraded remotely.

Mounting

Power must be disconnected from the ATS control panel before the ATS1801 is plugged in.
ATS1801 computer and printer interface plugs into the control panel J11 connector.
